Westex UltraSoft® Flex

Specify Westex UltraSoft® Flex for maximum comfort and superior mobility

The new, innovative Westex UltraSoft® Flex FR fabric is designed to bend with your workers as they move in their jobs — giving them enhanced comfort and greater mobility while they work. Plus, they'll have the excellent softness, shrinkage control and guaranteed flame resistance that's only possible with Westex by Milliken's advanced, proprietary engineering process.

- **Increased flexibility with over 50% more stretch**
- **Lightweight**
- **Superior softness**
- **Minimal shrinkage over extended launderings enables a better fit for long-term wear**
- **Multi-hazard protection**
- **NFPA 2112 certified**
- **Arc Rating (ATPV) 8.7 cal/cm², NFPA 70E Category 2**

**3 out of 4 workers prefer
Westex UltraSoft® Flex fabric**

The information in this publication is based on testing conducted by or conducted on behalf of Westex, Inc., a subsidiary of Milliken & Company, and represents our analysis of the test results. It is not intended to substitute for any testing that may be unique and necessary for your facility for you to determine the suitability of our products for your particular purpose. Since we cannot anticipate all variations in enduser conditions, Westex, Inc. makes no warranties and assumes no liability whatsoever in connection with any use of this information. As each customer's use of our product may be different, information we provide, including without limitation, recommendations, test results, samples, care/labeling/processing instructions or marketing advice, is provided in good faith but without warranty and without accepting any responsibility/liability. Any test results reported are based on standard laboratory testing but should not be used to predict performance in actual fire situations. Each customer must test and be responsible for their own specific use, further processing, labeling, marketing, etc. All sales are exclusively subject to our standard terms of sale posted at www.milliken.com/terms (all additional/different terms are rejected) unless explicitly agreed otherwise in a signed writing. Use caution near sources of flame or intense heat and do not launder with bleach or fabric softeners. Stretch data based on comparison of 7oz UltraSoft® Flex to 7oz UltraSoft®, 4.5oz Nomex® IIIA, 7.5oz Westex® DH and 7oz TecaSafe®. Three out of four workers prefer Westex UltraSoft® Flex fabric based on an end user wear trial conducted. Westex®, UltraSoft® and Milliken® are all registered trademarks of Milliken & Company. Nomex® is a trademark of E. I. du Pont de Nemours and Company. TecaSafe® is a registered trademark of TenCate Protective Fabrics USA.
